BASAP Spring 2017 Descriptions

Monday Circus Sports

(grades K-2)

\$68

Min 5/Max 30

3:50-5:05 p.m.

Practice unicycle, jump rope, juggling, double-dutch and tumbling with Mr. Faucette.

Chess Club with [Chess Mates Foundation](#)

(grades 1-5)

\$88

Min 8/Max 16

3:50-4:50 p.m.

Join Adams Elementary Chess Club and learn tactics and strategies of chess! Chess Mates has been offering after-school chess programs in Seattle area public schools for more than 20 years. Chess helps

children built critical thinking skills and helps to learn focus and plan. Each class includes lesson presentation, chess puzzle-solving time and game-playing time. Chess Mates will provide student workbooks, chess sets and boards and other materials. All you need to be is eager to play and learn! Both beginner and intermediate players are welcome! Please email chessmates@earthlink.net with any questions.

Sewing with [Little Hands Creations](#) (Monday session OR Tuesday session)

(grades 1-5)

\$152

Min 3/Max 9

3:50-5:20 p.m.

Once a week, students are invited to learn a skill they will use for a lifetime... sewing! No experience necessary for boys and girls to learn the basics and beyond. Beginning students will learn machine safety and beginner sewing techniques, while the more experienced students can expand on skills they already have. Student will advance at their own pace to more exciting and challenging projects throughout the session. Projects, which are constantly rotating during the quarter, include backpacks, phone cases, clothing, accessories, bags, games, stuffed animal and more! For a full list of projects, please visit www.little-hands-creations.com

Tuesday Circus Sports

(grades 3-5)

\$68

Min 5/Max 30

3:50-5:05 p.m.

Practice unicycle, jump rope, juggling, double-dutch and tumbling with Mr. Faucette.

Mural Design & Comic Art with [Mantisart](#)

(grades K-5)

\$158

Min 5/Max 25

3:50-5:20 p.m.*

*(*except May 10 release activities are from 1:45-3:45 p.m.)*

Mural Design & Comic Art will be joining forces for this engaging art class taught by artist Andy Miller. Students will be learning the techniques involved in designing a collaborative mural, along with expanding their individual skills in comic illustration, character building and story telling. Every student is given the freedom of creative expression in this fun and energetic class. They will take home a portfolio and their mural will join the exiting pieces hanging on the portable classrooms.

Sports Club

(grades 3-5)

\$63

Min 5/Max 30

3:50-5:05 p.m.

Come have fun in the gym with Mr. Faucette's new after school sports class! This class will have a different sport focus each week, from basketball, to bowling, badminton to roller-skating! Students will know in advance which sport will be played so they can dress appropriately.

Art Club with [Kids Create](#)

(grades K-5)

\$128

Min 8/Max 12

3:50-4:50 p.m.

Come join us for this spring art series as we express ourselves through the art of nature. Projects will include large flower paintings inspired by Georgia O'Keeffe, sculptural birds with paper mache, hand painted eggs, rock insects and printmaking natural forms. Classes are held Thursday afternoons after school.

Creative Coding 4 Kids - Core Class *(Thursday class only this session)

Registration at www.creativecoding4kids.com

(grades 3-5)

Min 8/Max 12

\$247

3:50-5:20 p.m.

*Note: This session will be a mixed-level class for grades 3 - 5 with students being taught at their level. Creative Coding teaches your child to code by helping them make their own custom video games! Our project-based, multi-level classes are amazingly fun yet very effective in teaching creative problem solving

AND emotional resilience. As your creative girl or boy has fun bringing their ideas to life, they iterate through the emotional cycle of Coding (idea->excitement->effort->frustration->more effort->triumph!) With our support and positive encouragement. Repeating this cycle not only builds great coders, but more importantly, develops emotional persistence that will help students enjoy taking on new challenges in all aspects of their lives.

Students new to coding will participate in the Creative Coding core curriculum, learning the fundamental elements of coding using MIT's Scratch to create their very own computer games! Students with previous Scratch experience will enjoy the Advanced Curriculum, where each day contains a unique mix of coding challenges, techniques, and hacks. Our classes are designed to be repeated an infinite number of times. As students complete a class, they go up one level, like in video games, and increase their coding skills, speed and proficiency. Many parents and educators are realizing that the benefits of learning to code at a young age extend far beyond the skill itself. Through the "brain exercise" of coding, coders build intelligence like athletes build muscles. Just as importantly, they develop stronger problem solving skills, confidence over technology, and emotional persistence.

For more info, visit <http://www.creativecoding4kids.com>

Friday LEGO Club

(grades K-5)

\$63

Min 15/Max 25

3:50-5:05 p.m.

Let your imagination run wild with thousands of pieces of LEGO. Build anything from cars, to cities, animals to aircraft. Be creative as you allow your mind to run with the endless possibilities to create whatever you imagine! Join Mr. Faucette as you enjoy and explore the fun, exciting, and wonderful world of LEGOs.

Musical Theatre with [Seattle's Performers](#)

(grades 1-5)

\$128

Min 7/Max 16

3:50-5:20 p.m.

Lion King at Adams

Students will hone their theatre skills through improv games, and learn songs, and scenes from Disney's The Lion King. The African savannah comes to life with Simba, Rafiki and an unforgettable cast of

characters. Students will be singing, and dancing to Lion King hits such as, I Just Can't Wait to Be King, Circle of Life and Hakuna Matata.

Piano Keyboard Club with [Musical Minds](#)

Registration at <http://www.musicalmindspianokeyboardclub.com/Registration2016.html>

(grades K-5)

\$168

Min 8/Max 24

3:50-4:50 p.m.

Kids will have the opportunity to learn to play their favorite songs and music on electric keyboards. Radio hits, movie and television themes are made so easy, that our participants will be playing them after the very first class! The club is a combination of keyboard piano lessons and a music learning workshop, which uses a clever visual method to teach the basics of music reading and piano playing. We've developed lots of learning games and activities designed to teach kids basic music reading skills and playing techniques, in ways that are fun, engaging, and stimulating. We want our students to stay motivated and continue to want to learn to play music, whether they like Taylor Swift, Bruno Mars, Macklemore or Beethoven. We have all the music they want. We have music from Frozen, Stars Wars, Jurassic Park, Indiana Jones, and lots more. Each participant has his/her own keyboard supplied during the class, along with headphones, and books and other materials are included.
